### Important Safety Information

**CAUTION:** AVOID FLYING DRONE IN CROWDED AREAS.

**WARNING:** NOT SUITABLE FOR CHILDREN. ROTATING BLADES MAY CAUSE INJURY.

### Important Instructions Before Use

1. Only use device for intended purposes.
2. Fly drone in area without low barriers or crowds of people.
3. Review rules and regulations for flying drones in your area.
4. Ensure all propellers are secure.

### Pre-Flight Preparation

1. **Propeller Installation**
   - Propellers should be installed by pairing with their corresponding leg. Please see the diagram on the right for details. Failure to install propellers correctly may impact drone performance. To install and uninstall propellers, use the included screwdriver.

2. **Arm folding order**
   - When storing, fold the front arms (near the camera) in first.

3. **Lithium battery instructions**
   - Grip the battery from both sides and pull out the entire battery assembly. To charge, plug the USB cable into a power source and the red cable into the battery.

### App Instructions

1. **Download Drone App on Your Smart Device**

2. **Before use**, place the drone on the flat ground. Turn on your Wi-Fi and connect to WiFi-720P-###.

3. Open the app and enter main interface, then click “play” to enter the main app.

4. **Click [ ]** to enable the controls.

5. **Click icon [ ]** to activate altitude hold.

- **One-Key Calibration**
- **Drone Mode**
- **Draw route**
Operating Your Drone

1. Gravity Sensor Mode: Use this feature to control your drone by shaking your phone.

2. Take Pictures/Video:
   a. Hold the drone in Attitude Mode.
   b. Position the drone to face forward.
   c. Click on the camera button or video button to capture photos/videos. Click video button again to stop recording.

Tips for Operating Your Drone

1. Attention: After flight, please disconnect the battery from the drone to avoid battery damage.

2. After charging, connect the battery with the drone. Place the drone on a level surface.

3. Ensure there is enough space to safely fly your drone. Make sure you are aware of which way the drone is pointing before taking off to ensure easier flying.

4. Attention: The camera of your drone is the “front”.

5. Attention: The left joystick should be used carefully to slowly ascend. You may use the fine-tuning function to calibrate your drone as necessary.

6. Attention: When your drone is within one foot of the ground, the vortex generated by the propellers will make it become unstable. Flying higher will alleviate this problem.

7. Attention: The left joystick should be used carefully to slowly ascend. You may use the fine-tuning function to calibrate your drone as necessary.

Technical Specifications

- **Dimensions**: 250 x 250 x 35 mm
- **Charging Time**: 70 minutes
- **Function**: Forward/backward, up/down, left/right sideways flight, hovering, 3D flip, headless mode, high/low speed, one-key landing, FPV image transmission, photo taking and video recording, altitude hold.
- **Built-in Camera**: Yes
- **Color**: Black, turquoise
- **Gyroscope**: 6-Axis
- **Video**: 480p
- **Weight**: 85 g
- **Main Material**: ABS & Hardware
- **Controller**: Mobile Wi-Fi control
- **Camera**: 2MP
- **Battery Life**: 6-8 minutes
- **Motor type**: Coreless motor
- **Number of Cameras Included**: 1
- **Supported Operating Systems**: Android 4.2 and iOS 7.0 above

Caring Information

- If you need cleaning, wipe with a damp cloth. Do not attempt to clean with liquid cleansers or submerge in water.

- The device complies with the European Directive 2014/53/EU.

- The device complies with the FCC rules as of the date of manufacture. Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the device.

- The maximum allowable radio frequency power output and antenna gains of the device are controlled by the regulatory body. The use of unapproved accessories that exceed the maximum allowed limits may cause the device to exceed the emission limits.

- Please ask the municipal administration where the appropriate disposal facility is located.
